

Please help

save Mount Canobolas

from a new threat

A draft plan of management for Mt Canobolas State Conservation Area could open the way for over 60 km of new mountain bike trails, plus infrastructure. This should be opposed for three reasons:

- 1 The park is too small for such a huge development;
- 2 The environmental impacts on the unique and fragile ecosystem of the mountain would be too severe: and
- 3 There are perfectly adequate alternative sites.

Please send your objection/comments (perhaps using these reasons), by 1st October to:

Post: Manager, Planning Evaluation and Assessment, PO Box 95, Parramatta NSW 2124.

Email: npws.parkplanning@environment.nsw.gov.au

Online: <https://www.environment.nsw.gov.au> (where the draft plan can be viewed)
